I - Desiree Elisabeth Stokkel - determine that RepublicNL will be

a Prefecture for the Japan Constitution , from 12 december 2024 on.

I - Japan - Fujitsu will construct Country RepublicNL on a Server in Japan 🇯🇵

Conditions:

- Japan accepts the Charter Spacecourtplanet and the Constitution RepublicNL.
- Japan gives Desiree Stokkel a 2 million euro Damagepay, for supporting DictatorshipNL... instead of DESTokkel.
- Fujitsu works from Win all Lawsuits procedure Spacecourtplanet.
- We construct Intergalaxy Arbitration Court of Law, with its Obligated Problem-solving procedure for all Parties in Conflict.
- We clean up DictatorshipNL.
- Japan can put conflicts RepublicNL in front of a Japanese Court of Law, where a Japanese Judge will write a JP Courtverdict.
- DesireeStokkel wants to move to Prefecture Nagasaki, for Mediaschool Refreshment Dutch Business Education NagasakiUni.

This move cuts down on many (criminal) differences between Japan and Kingdom NL, now all Business can be relocated to RepublicNL Fujitsu Server.
