

Particle cloud: the Will of Man

Particle cloud thinking:

My Cloud is everything I think-feel-display in behavior.

My space Cloud is partly controlled by forces I don't know.

**My space Cloud, standing in the middle of other particle clouds of
Humanity.**

I can't hear - see - find everything in the P-cloud of fellow human beings.

**I can always feel what the Space Forces are doing, but can this EQ
X IQ does not always present in words on earth.**

I can always think about what I'm doing in my P-cloud.

**I can always give the P-cloud of fellow human beings access to my
Space Cloud.**

**I can always communicate about what's going on in my P cloud;
words-sentences-stories can come out of my mouth from difficult to
smooth .**

**I can always address humanity from my P-cloud; this is the
Evolution of Expedition in human life & body.**

I can always assign a role to a person in my P-cloud; self-maintenance during the experience of relationships.

I can always clean my space Cloud; preferably in the 3-angular relationship with higher Space Forces that put me on earth .

I can study what I want; the extent to which I can remembering ... is partly determined by the location of the knowledge , which I attract to me.

I can do what I want..., but the Will in Man is also in Evolution... and can give me a mirror for my personality ... that I think is good or bad.

I study my will in the Mirror, I lack knowledge and I try to find and internalize this water quality.

During my growth process ... the Will is always active ... although I cannot do this every day. experience-articulate - actively share nano - second with fellow human

beings. The Will can also be drained by parasitizing humanity; lazy the thinking individual must be 'put to work within his own will'.

'Think for a moment about'what you really want... and go do this, while you let all the Particles in your cloud cooperate'.

I have my will in Evolution; you have your will in evolution. Maybe we can talk about parts of this evolution process.

My will in your Particle Cloud is partly God's work. Part of us behavior around the will, we will never understand... now that we do not know where man is conceived and made.

My Will has a built-in' Fall death moment'; your WILL has this too. This means in Space EQ X IQ terms: I'm going on an expedition, because my will ... needs new Particles for my evolution.

My evolution is my path to EQ X IQ behind the Bigbang; the 3 the relationship between my body-your existence in the universe - the creators of the universe.

What do I want from you?

Now that I'm on an expedition to Planet Earth, I want you to join me in my Particle Cloud study ... somewhere in the universe.

**I want you to show me all the evolution of wisdom , through Man
be in your own life.**

**I want to know : How you move - choose-mixfixed-learn-disconnect -
searches-gently connects to unknown Particles-becomes a new man
, under the supervision of Space Forces.**

**I want to have an overview of the functioning of my will in the
Society on Earth, Intergalaxy.**

**I want you to make me happy-or, make me smarter in Neutrality -
or, stronger, so that I can better mixfix other more complex particles of
fellow humans.**

**I want you to make me sick so I can find out how others
Particles make me sick. I want to know your demolitions,
for the healing evolution of myself.**

**I want the space guides ' always present so that I can feel safe
feel during the expedition in my Particle Cloud.**

**I want to share my experiences with other P-clouds; incomprehensible that
Some P-clouds in my area do not need me now.**

**I want to be left alone ... to be able to figure out how the will
functions ... for myself ... in relation to higher universal forces.**

I want to see the evolution process around the will in my Particle Cloud, routing

moderately 'more comfortable'.

- **Having more sorting ability, so I meet new P-Clouds ...
who want to give me their gift.**
- **More categorize skill for maintaining my DNA
library.**
- **More evolution of overview skill, being able
to keep in comfortable growth routinely; not being afraid of higher
forces outside my body. To be able**
- **to feel - hear - see - Think - show better, for evolution of simplification.
So that I can better know and use the short and long meridians in my
life... for all of us.**
- **Being able to control my own safety in evolution... so that the blows
that come... are less painful.**
- **To be able to 'manage' my pain; to soar at the right speed in my
own P-cloud ... so that I can heal myself on short meridians.**

- **Being able to share my expedition knowledge, without fellow humans parasitizing on me; I expect other P-clouds to know the integrity for keeping all life on earth good & healthy, in the harshest forces of the universe.**
- **Being able to keep my P-cloud in predominantly sharing love running, while I take the learning moment out of painful elements ... for self healing. And, evolution in the space bathroom.**

How can I study my will in evolution?

Listen to my body.

Sleeping alone so I can interact with Space for refreshment my existence on Earth.

Find and present the right words-sentences-texts, so that a person can study his / her will.

Evolution of hearing-seeing-silencing-balancing-showing-sharing - allow for Mix fixes ... be able to apply healing in every nanosecond in the universe.

I want to know what God / Space Forces think and do with my Living, knowing that this results in:

- **You always get what you want, plus a little extra for Evolution.**
- **You get what you need, not what you want, now that you have yet to discover the origin of your own Will during your expedition into the universe.**
- **You don't know... who you are now ... and who you will be tomorrow.**
- **Tomorrow you know ... what Particles you need tomorrow; today you can only live for the mixfix with Particles ... that are now in your nanosecond.**
- **Particles that I meet today I want to mixfix for studying the evolution of my will. Some are 'obsolete knowledge / superfluous'.**

- I want to give you my good healing Particles as a gift so that I can discover who you are... and see - hear - feel ... whether you are
- smart enough to keep your own will in evolution.
- I want to know ... if You Love Me; Do you also keep my Particle Cloud
- healthy & healing?
- I want to know if you're offering me Security and allowing me to mix-
- fix for more security between multiple P-clouds. I want to
- know ... how strong the evolution of my will is... and ... whether there will ever be a Moment... when I know ... how my will is
- made and maintained within the universe.
- I want to know ... which Space Forces touch the antennas of my body
- ... for what life purposes.
- I want to realize... how my will can know it all.
- I want you to appreciate and be able to use the workings of my Particle Cloud in such a way that we are both in evolution of wisdom
- .
- I want him to know what I need.

The evolution of need, finished in evolution of redundancy.

Here one's own will grows.

Here the space bathroom is active.

This is where your relationship with Earth becomes 'stronger'.

Here you are never afraid to die.

Here you can tease the Saint School space guides ... or contradict them.

Here you consult with your deep self for what else you want

to get out of life.
