This Constitution is part of the International Criminal Court lawsuit against Kingdom NL - started May 2007 and still running -.

**Its useless to spend more time on the Text of RNL-CH Constitution, now the Kingdom NL parliament refuse to talk about the Real Technology threats , in Government.**

They refuse to make Robot Laws, with the target to protect the Individual Human body against Murder / Illness / Genocide.

**Next move:** To start a Federal Constitution Club on NL territory for the New State of Law for the People, worldwide and intergalaxy.
